
Secure Browser Installation

User Guide

Before Beginning

Ensure you have

- Internet connection
- Administrative privileges on the computer where the Secure Browser will be installed
- Activation Key

Please close open computer applications. A computer restart will be required for the installation of the browser and its encrypted keyboard.

System Requirements

NOTE: 32 and 64 bit operating systems are supported

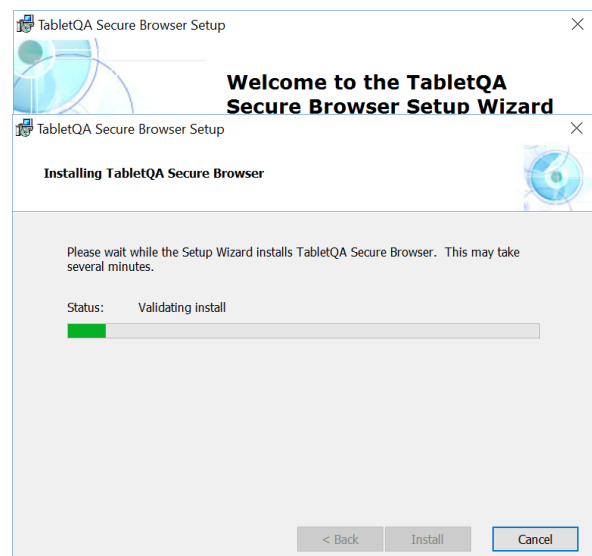

- Windows 7
 - 1 GHz or more SSE2 capable Intel Pentium 4 microprocessor (or later)
 - 2GB of RAM
 - 16 GB (32bit) or 20 GB (64bit) of Hard Drive space (minimum)
- Windows 8, 8.1, and 10
 - 1 GHz or more SSE2 capable Intel Pentium 4 microprocessor (or later)
 - 2GB of RAM (32bit) or 4GB of RAM (64bit)
 - 16 GB (32bit) or 20 GB (64bit) of Hard Drive space (minimum)
- Remote Desktop and Virtual Machine installations are supported in most cases. Terminal Servers and installation in environments that use folder redirection are not supported.

Installation

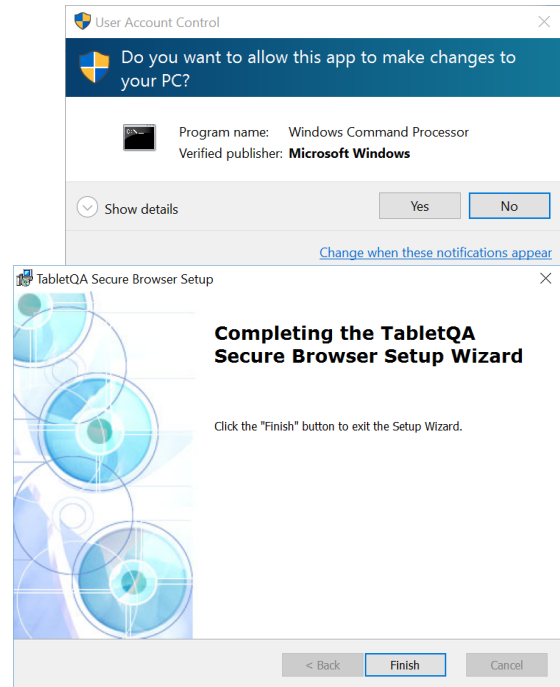

1. Select the Secure Browser hyperlink from **PeoplesBank** to begin download. Once download has completed navigate to your *Downloads* folder to launch the installer.

2. Select **Install** to continue.
3. Secure Browser will begin installing its files and folders. If prompted, confirm that Secure Browser should be allowed to make changes to the PC.

4. Select **Finish** once the installation has completed.

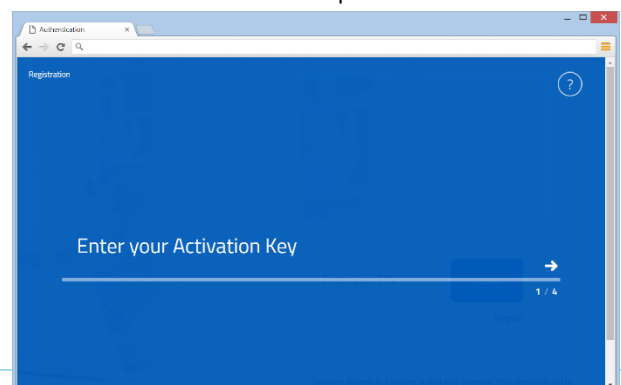

5. A reboot is required before Secure Browser can be registered. Select **Yes** to reboot now, or **No** to reboot at a later time.

Registration

1. After performing the reboot, launch Secure Browser by locating and selecting the new **icon** that has been created on the desktop. Then enter the **Activation Key** that has been provided by the bank and then select the **Continue arrow**.

2. Next create the **PIN** you will use to login, and select the **Continue arrow**.

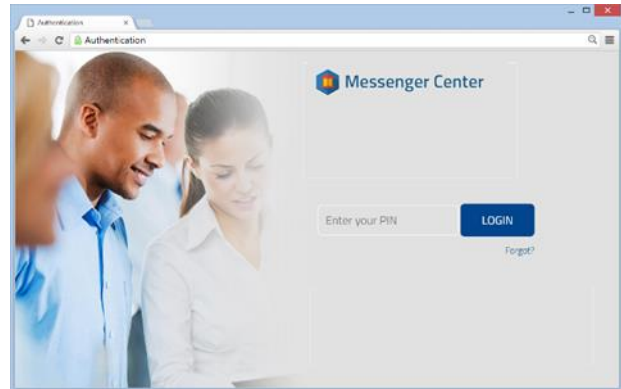

3. To confirm your identity, a user verification code will be delivered to you that must be entered on the next screen. Select if this code should be delivered via **Email** or **SMS**, then select the **Continue arrow**.

Note: You must be enrolled for SMS notifications to successfully receive your user verification code via this method.

4. Enter the user verification code that has been delivered, then select the **Continue arrow**.

5. Installation and registration are now complete. Use the PIN that was created in registration step 2 to login and access your online banking.

Features

- A. **Apps** – Select here to access the list of your entitled websites, referred to as *Secure Apps*. Click on an option from the drop down menu to create a new tab and navigate to that website.
- B. **Close Tab** – Select **X** to close the tab. If a login was required to access the website, you will also be logged out when the tab is closed.
- C. **New Tab** – Select here to open a new tab and access your *Secured Apps* list homepage.
- D. **Settings**– Select this option to zoom in/out on the webpage or search for a word or phrase on the page.
- E. **Secured Apps** – Select an icon to open a new tab and navigate to the site.
- F. **Logout My Apps** – Select here to logout of and close all sites, then close Secure Browser.
