

REQUESTING AN INTERNATIONAL WIRE? WE CAN HELP!

When completing your international wire request, here's a few tips and helpful information you will need.

Currency – You have the option of sending the wire in US dollars or a foreign currency listed in the drop down. Please select the option that applies to your transaction.

Amount – This is the amount of the type of currency you want to send. For example if you select Euros above, please enter the amount of Euros you wish to request. You will be charged the US \$ equivalent.

Beneficiary Information – Please complete as much information in this section as possible. You must complete all sections that have an asterisk (*).

Bank Information - It's important to be sure the International Bank Account Number (IBAN) in this section is correct for proper processing. Please select the IBAN radio button when sending US \$ or foreign currency to the following locations:

Greece (27)	Germany (22)	Netherlands (18)	Italy (27)
Switzerland (21)	Denmark (18)	United Kingdom (22)	France (27)
	Spain (24)	Ireland (22)	

The IBAN begins with two letters and should be the length listed in parenthesis behind the country. This length includes the two letters. The account number should be a part of the IBAN.

If you are sending to some other country, you would use the account number radio button. This information also goes in the IBAN field.

Intermediary Bank information – This section only gets completed if there is another bank that the wire goes through before going to the Bank Information.
